System Requirements

- User can log in to the system
- Customer register
- Customer search for items
- Customer Filter through items using category, size, and types
- Customer select the preferred size, colour and quantity
- Customer add items to the cart
- Customer checkout the cart
- Customer Choose payment method
- Customer Enter payment details
- Customer view order history reports
- Validate payment details via the portal
- Verify the order by system
- Admin assign a courier service
- Customer Enter reviews regarding the item
- Customer check order status
- Admin login
- Customer edit Customer profiles.
- Admin view Items report to restock
- Admin adds new items
- Admin deletes items that are no longer available
- Admin restock items
- Courier Service deliver item

Noun & Verb Analysis (Nouns)

- User can log in to the system
- Customer register
- Customer search for items
- Customer Filter through items using category, size, and types
- Customer select the preferred size, colour and quantity
- Customer add items to the cart
- Customer checkout the cart
- Customer Choose payment method
- Customer Enter payment details
- Customer view order history reports
- Validate payment details via the portal
- Verify the order by system
- Admin assign a courier service
- Customer Enter reviews regarding the item
- Customer check order status
- Admin login
- Customer edit Customer profiles.
- Admin view Items report to restock
- Admin adds new items
- Admin deletes items that are no longer available
- Admin restock items
- Courier Service deliver item
